INNOVATION CREATES THE FUTURE

VAPORESSO is supported by 13 world-leading R&D institutes that, collectively, possess 2988 patented technologies and 1404 patented inventions. Total R&D expenditure by the parent company, SMOORE, surpasses USD 330 million per year, an amount that is more than 10% of VAPORESSO's total annual revenue. Strong power of innovation leads the best future.

PERSISTENCE GENERATES RELIABILITY

From research and development to automated manufacturing, VAPORESSO complies with all regulatory requirements and has implemented strict quality controls for every process in the chain in order to deliver the best user experience with all products. From raw materials to packaging, every single component of the product composition must meet the zero-defect and eco-friendly requirements. VAPORESSO can provide the promised reliability

DESIGN REFLECTS STYLE

VAPORESSO was born to be driven by design and to be continuously inspired by imaginative ideas from every corner of the globe. Through Powershop, the highly influential vaping community, VAPORESSO connects consumers from 50 countries and attentively listens to their voices. Forged from what consumers expect, VAPORESSO designs fashionable products that express each user's individual and unique style.

COMPLIANCE ENSURES SAFETY

Lead-free and non-toxic raw materials and automated manufacturing ensure the safety of all VAPORESSO products. The manufacturing procedures are among the most environmentally friendly in the industry. The vast majority of our products have already passed PMTA and received certification from the FDA. The various certifications from most of countries speak to the trustworthiness of our products

"I had always hoped that an innovative, well designed, genuinely high-quality product would come to market...one that can offer the best vaping experience to all vapers, and encourage more people to quit smoking. That is, and always will be my original aspiration."
